O R D E R

IT IS ORDERED that Leslie County Telephone Company, Inc., ("Leslie County") shall file an original and 12 copies of the following information with the Commission, with a copy to all parties of record, by no later than March 27, 1987. Include the names of the witnesses who will be responsible for responding to questions related to the information provided. The effects of Items (1), (2) and (3) shall be addressed by all utilities. The effects of Items (4)

through (20) should be addressed by each utility as applicable. For each item below, provide the dollar amount for each adjustment or, for items omitted, an explanation as to why the information is not being supplied. 2. Provide any comments you deem appropriate as to the procedure of adjusting rates effective July 1, 1987, to reflect the change in revenue requirements based on the lowering of the top corporate rate to 34 percent.

3. Per the testimony of Mr. Donald Roark filed January 27, 1987, Leslie County's tax expense, using the 34 percent tax rate, would increase by \$6,845. The Commission staff has calculated an increased revenue requirement of approximately \$10,100 as necessary in order to cover this cost plus the tax on the additional \$6,845 in revenue. An increase of 16 cents per main station would be required to generate this increase in revenue. Does Leslie County have any comments or opinions on this calculation?

4. Leslie County shall file proposed tariff sheets reflecting the change in rates based on a 34 percent tax rate.

Done at Frankfort, Kentucky, this 13th day of March, 1987.
